Experience

Frontend Developer Internship | Certificate   Oct 2023 - Current
Frontend Simplified

- Transformed a completely static HTML, CSS, JavaScript and React single page application into an interactive user interface using animations, transitions and carousels
- Processed API requests with Axios to dynamically represent data from a cloud server and represented it through skeleton loading states, pagination and dynamic routing
- Utilized Git version control and the GitHub interface to work and thrive in a virtual and collaborative team environment

Freelance Frontend Developer   July 2023 - Current
Self Employed

- Delivered professional websites using HTML, CSS (+ TailWind), JavaScript and React best practises
- Improved website performance by compressing, caching and lazy loading images and components
- Included SEO, responsive, multi-platform and hosting support, enabling their website to be used by any browser or device in the world

Frontend Developer Support   Aug 2023 - Current
Frontend Simplified

- Supported students using HTML, CSS, Flexbox, JavaScript and React best practises
- Utilized debugging best practises using Google Chrome inspect element tooling
- Simplified difficult programming concepts including responsive website development, CSS layout, Promises and API requests

Projects

Zelda Inspired Weather App | Website | GitHub
- Created a fully responsive Zelda Themed Weather App that changes the background based on the weather.
- Each background image is a GIF from The Legend of Zelda Series.
- You can look up any area of the United States by city, state, and/or zip code.
- A celsius/fahrenheit switch for temperature.

Zelda Inspired Twitter Clone | Website | GitHub
- Developed a social media app with basic functionality (e.g. Posting Tweets, Commenting, Uploading Photos, Liking Posts, Login/Logout, Delete Posts)

Berserk Anime Style Memory Card Game | Website | GitHub
- Inspired by the Berserk Anime series where you have to avoid picking the same card each round.
- Has animations for the card flips
- Audio cues and background music with toggle on/off switch

Banned Books Website | Website | GitHub
- React application displaying banned/mature rated books with a working shopping cart feature.
- OnClick features allowing you to view the plot of each book
- Filter option to sort books by their star review and price

Vanilla Crunchyroll/Anime Search Clone | Website | GitHub
- Integrated the AniList Api to fetch user search results for anime series/movies.

Summarist Audio Book Application | Website | GitHub
- Full Stack Audiobook Application fetching paid/free audio books from API
- Allows users to create an account with Login/Logout functionality
- Users can make pseudo payments thru firebase and stripe
